Ortho-Cast M-Series
A series of buccal tubes
in a class of their own

Ortho-Cast M-Series
non-convertible

single rectangular double rectangular

Ortho-Cast M-Series
convertible

single rectangular double rectangular

Ortho-Cast M-Series mini
non-convertible

single rectangular

Perfect in function and design

Just like the Dentaurem brackets, the buccal tubes are manufactured using state-of-the-art design and production techniques.

The Ortho-Cast M-Series buccal tubes offer the user many features for simple and safe handling. The user also has a wide choice of Ortho-Cast M-Series buccal tubes, single or double rectangular, convertible or non-convertible, for the bonding or for the banding technique

Patented
laser structure
with FDI notation!

Highlights:

- Double and triple combination, convertible, for the banding technique.
- Genuine one-piece buccal tube for high biocompatibility.
- 3D base with laser-structured pad for secure retention and perfect fit.
- Marking with + (upper jaw) / - (lower jaw) and FDI notation in the bonding technique for easy matching to tooth.
- Pliable ball-end hook for high flexibility and customized treatment.

**single rectangular
non-convertible***

Pliable ball-end hook
for high patient comfort.

Distal groove
for placement of additional
elements, e.g. figure-eight ligatures.

Funnel-shaped entrance
for easy archwire insertion.

Anatomical 3D base
guarantees an ideal fit.

Buccal contouring
for easy positioning on tooth.

Groove for crimping tweezers
for easy placement.

**Patented laser-structured base
with FDI notation**
for ideal retention and easy handling.

* Also available for the mandible, second molar, system McLaughlin-Bennett-TrevisiMBT**

**The Dentaorium version of this prescription is not claimed to be a duplication of any other, nor does Dentaorium imply that it is endorsed in any way by Drs. McLaughlin, Bennett and Trevisi.

single rectangular
convertible

Pliable ball-end hook
for high patient comfort.

Groove for crimping tweezers
for easy placement.

Innovative conversion cap
offers flexibility during therapy
planning. The cap can be
removed quickly and easily.

Rounded wings
pleasant to wear.

Patented laser-structured base
with FDI notation
for ideal bonding and easy
handling.

Anatomical 3D base
guarantees an ideal fit.

Buccal contouring
for easy positioning on tooth.
