- *Speaker – EOS 2007 – Berlin, Germany - “Mapping Buccal Cortical Bone Thickness with CBCT for Mini-Implant Insertion”*
- *Speaker – TADs Conference – Scottsdale, AZ*

Dr. Baumgaertel is the *tomas*<sup>®</sup> Pin expert at Case Western Reserve University. He is the main author of an AJODO article on “Mini-Implant Anchorage for the Orthodontic Practitioner”, and he is also speaking for two workshops at the upcoming TADs Conference in Scottsdale, AZ (Oct. 20<sup>th</sup>).

Dr. Baumgaertel will give an evidence based introduction to the theory and practice of TADs. This lecture is meant to provide practitioners with the knowledge and comfort level for successfully treating a wide variety of indications with TADs. Treatment planning, maximizing clinical success rates, efficient biomechanics, and how to deal with the challenges and opportunities of mini-implants are some of the topics that will be discussed in the course of this lecture. During this session, Dr. Baumgaertel will also be offering an optional “hands-on” segment, which will allow the attendee to: personally place a pin in a “simulation model”, setup various mechanics for 2-3 specific indications, and then keep this custom-made patient model as an excellent consultation aide with your future TAD patients!
